

Naaman's Spots

Naaman was a brave commander from the army in Syria. Even though he was famous, he had a big problem—he had leprosy, a deadly skin disease. Naaman didn't know the true God, but when his wife's servant girl told him about God's prophet in Israel who could heal him, he eagerly went to see Elisha. The prophet told him to do something, and his skin would be repaired. At first Naaman was angry, but finally he did as he was told, and he was healed right then!

What did Elisha tell Naaman to do? Solve the puzzle below to find out! Write every third letter in the blank spaces below. The first one is marked for you.
